

JOB OPPORTUNITY BULLETIN

CLASSIFICATION: Associate Toxicologist

POSITION NUMBER: 811-155-7941-004

BULLETIN RELEASE DATE: July 3, 2000

FINAL FILING DATE: Until Filled

MONTHLY SALARY: \$4136-5480

DUTIES/RESPONSIBILITIES: Under the direction of the Senior Toxicologist, the Associate Toxicologist will evaluate the current literature to assess the health effects of toxic air contaminants. The Associate Toxicologist will also provide assistance in evaluating health effects of other substances, assist in the evaluation of existing scientific information on the health effects of toxic air contaminants and candidate toxic air contaminants. This involves evaluation of the toxicological and related literature on substances identified as toxic air contaminants as well as on substances that are candidate toxic air contaminants. Evaluations will include pharmacokinetics of the substance (absorption, distribution, metabolism, excretion), as well as noncancer and cancer toxicological effects, and any other related information and statistical analyses of appropriate data sets. In addition, the Associate Toxicologist will assist in developing any necessary cancer unit risk factors and noncancer Reference Exposure Levels, write reports on the health effects of toxic air contaminants, prepare for Scientific Review Panel meetings, public workshops and reviews, and assist in responding to public and peer review comments.

DESIRABLE EXPERIENCE/QUALIFICATIONS: Ability to evaluate research studies in the fields of toxicology and pharmacology for application to issues of public health, work cooperatively with outside agencies and departmental staff, communicate effectively and analyze situations accurately and take effective action.

WHO SHOULD APPLY: State employees currently employed in the above classification, persons with current list, transfer or reinstatement eligibility, and state employees currently identified as surplus or on the SROA list.
